Steel Doors and Steel Fire Exits

Welcome to NPM-Sinoph, suppliers of steel doors

Since 2001 NPM-Sinoph have grown to become leading suppliers of quality **steel doors**, steel security doors, steel fire exit doors and **steel personnel doors**.

NPM-Sinoph are one of the world's largest manufacturers of steel doors, steel security doors and fire/emergency exit doors, producing some 4000 **steel doors** per day that are sold all over the world.

Our aim is to provide quality **steel security doors** at an inexpensive price that ensures peace of mind security with a fast and efficient support service.

NPM-Sinoph are centrally based in Congleton, Cheshire and within 15 minutes of the M6, customers are guaranteed a delivery service and an assurance of our best attention and advice on our **steel door** range at all times.

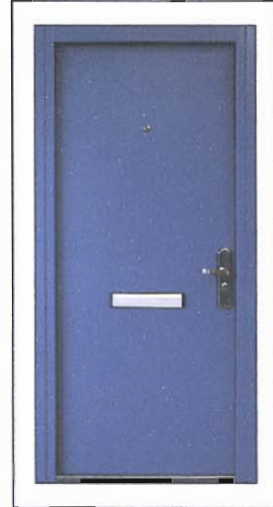

When choosing a new or replacement steel door the untrained or inexperienced person will have many choices of steel doors to consider, the cost and range of these **steel doors** is enormous and can easily run into hundreds of pounds.

NPM-Sinoph specialise in supplying **multi-point locking steel security doors**, steel fire exit doors and steel personnel doors. Each steel door offers value for money and peace of mind that is hard to find with other types of high quality security doors.

All our steel doors are available as **single steel doors** and double steel doors which include outer frame covers that expand into various width openings making them suitable for most non standard openings. With more than 65% of businesses choosing entry doors made of steel, it makes sense to consider steel doors as a good investment when replacing through willful damage, burglary or when specifically requested for a new build design. Steel doors give excellent protection to front or rear entrances to industrial, commercial and domestic premises.

We carry extensive stocks of all types of steel doors and can respond quickly to "special" multiple orders if required. Please **contact our steel door experts** for more information on **01260 295996**

Our standard steel door comes in a **grey** finish (RAL 7045) but **other colours** are available on request.

Steel Door with Digital Lock
 Our standard weight or heavyweight multi point locking steel security doors can be fitted with a digital lock to add extra security and restricted access to the building.
