For the attention of Graeme Moor.

Dear Sirs,

Retention of barn, stables, stores and garage etc. as built with non residential use as first-floor veterinary and staff facilities at Poplars Farmhouse, Jaques Bank, Medge Hall, Crowle.

We refer to the above proposals included on the recent new application list. The location of the proposed development is inside the Hatfield Chase Internal Drainage Board's area and close to a watercourse maintained by them.

It is noted from the application document that surface water run-off from the development is to be directed to a watercourse. The developer will need to obtain consent from the Hatfield Chase Internal Drainage Board with regard to any new discharge or change to rates of flow into any watercourse within their district. Consent will also be required if new outfalls are to be installed in any watercourse also within the Internal Drainage Board district.

If you need to discuss the above further, please do not hesitate to contact Paul Jones, quoting our reference on all correspondence.

Yours faithfully,
On behalf of the
Corporation of the Level of
Hatfield Chase Internal Drainage Board

Paul Jones
