Thanks Emma

As discussed we are looking to change the cladding colour at our site on Foxhills Industrial Estate from a very faded blue to a new grey. I can provide RAL colours if needs be.

Please see attached photo's of the condition and colour of our current cladding, which is virtually faded to grey as things stand. The small darker painted square is the original colour. The surrounding buildings are a mixture of cladding colours but predominantly grey, blue. The desire is to have two tone grey exterior as our desire is to match in with the adjacent units to modernise the appearance our facade. I have provided an example below.

The image below highlights the RAL colour we will be using on the windows and door trims etc.

Thanks Leanne

RAL Codes are:

7035 for the main cladding
7043 for the trims/ windows and door frames

Look forward to hearing.

Kind Regards

Hi Chris,

If you could provide me with the details of the colours that would be brilliant.

I can determine the application this week, so if you are able to provide the colour information by return I can issue the decision.

Regards

This is an EXTERNAL email. Please exercise caution.

Hi Chris,

Further to our telephone conversation today, if you could send the details of the cladding through that would be great. There may be time to amend the application to include this detail if necessary, but I will have to leave that to Leanne to confirm formally.

Kind Regards

Emma
