Application reference: PA/2017/2017

Do you.....: Object to proposal

Comments: Apologies for a late objection. Can you please consider the following:

This site does not appear to allow sufficient opportunity for large vehicles (in our case 26 tonne refuse collection vehicles) to undertake a safe turning manouvre once it has entered the site and reached plot 6.

At a mid point there is a note on the plan indicating a turning point.

1. Can this site accomodate refuse collection vehicles 10.385 mtrs in length and with a turning circle of approx 20mts

2. Can a vehicle tracking plan be provided

3. Will any part of this development from the main highway be adopted highway?

The waste collection service will not enter onto a private driveway to undertake collections unless it has received full indemnity against damage from those with ownership responsibility.

4. Should this remain private then the developer should consider a bin storage facility adjacent to the main highway at the entrance to the site for use by residents.
