RE: Planning Application PA/2018/1294

=====

We understand that amended documents have been submitted for the above planning application, "to improve visibility".

With reference to our comments submitted on 12/08/18 (ref no FS84590363), we would like to draw your attention to the fact that we believe the revised site layout has not addressed the issues regarding highway safety, as the vehicle access to plot 1 remains unchanged, i.e. located directly on a blind bend.

Furthermore, the proposed revision may encourage additional vehicles to be parked on the roadside at points closer to the bend, thus compounding, rather than reducing, road safety issues.

Regards
Michael Butroid
