## PA/2017/1386

Hi Andrew

Whilst the proposals seem acceptable in principle, clarification is required as to the size of the balancing ponds. The original application indicated larger features taking surface water flows from upstream Lincs Lakes development. Our conditions and informative comments sent 01/11/2017 made reference to this application tying into the overall Lincolnshire Lakes Drainage Strategy. I assume this is a stand alone project and the ponds are sized accordingly? Please confirm?

Calculations are required to verify proposals comply with the 1 in 100 year plus CC flood event.

We await these details before commenting further.

Kind Regards,
