SUMMARY OF ADVICE

- Thank you for consulting the HER on the details submitted to discharge Condition 13
- The applicant has submitted a satisfactory Written Scheme of Investigation for the archaeological mitigation strategy as required in the condition
- The archaeological contractor is suitably qualified to carry out the programme of work to the necessary professional standards
- I have no objection to the discharge of Condition 13 and will update you with regard conditions 14 and 15 as and when a report is submitted that demonstrates compliance.

HISTORIC ENVIRONMENT RECORD (HER) FUNCTION: To hold, maintain, interpret and manage heritage information, enhancing the understanding of the area's historical development as a distinctive and attractive place. HER information provides source material for interpretation by heritage professionals and for use by community groups and individuals. The HER database is updated as new information about the historic environment is discovered.

The HER also provides advice on development proposals that affect, or may affect, the sites and settings of all heritage assets i.e. designated and non-designated historic buildings, archaeological sites and monuments, and historic places, areas and landscapes. This advice is provided against saved local plan policies and national historic environment policies.
