Informative 1:

Any person responsible for carrying out the works authorised by this notice is advised to engage the services of a qualified contractor in order to ensure an acceptable level of competence and that appropriate public liability insurance arrangements are in place.

Informative 2:

Nesting Birds and Bats

When pruning or felling trees or hedgerows you should ensure the work does not disturb or injure nesting birds. These, and their nests when in use, are protected from disturbance or injury under the 1981 Wildlife and Countryside Act. Ideally carry out work outside the main breeding season (1 March to 1 September).

In addition, it is important to survey trees for bats, particularly if they are mature trees with suitable cracks or holes that are likely to be affected by the work. All species of bat are protected under Schedule 5 of the Wildlife and Countryside Act 1981 (as amended) and Schedule 2 of The Conservation of Habitats and Species Regulations 2017, making all species of bat European Protected Species.

Informative 3:

The proposed tree works will require a level of traffic management to be used within highway limits. Before any works are commenced on site you should contact the highway authority on telephone number 01724 297319 to arrange for the necessary consents.
