Hi Jen,

We have reviewed the additional information submitted by the applicant. I would advise that Stage 2 and 3 Road Safety Audits for the new access are still required. With this in mind, we would recommend the following conditions are applied to any permission that you may be minded to grant:

- No work shall start on site until the new access from Rosper Road has been completed in accordance with details submitted to and approved in writing by the Local Planning Authority. These works shall be the subject of a full set of engineering drawings that have been subject to a Stage 2 Road Safety Audit.
- No work shall start on site until a Construction Workers Travel Plan has been submitted to and approved in writing by the Local Planning Authority. Once approved the Travel Plan shall be kept under review and updated as required.
- HC42
- HW1

Kind regards

Louisa Simpson
