Dear Robyn Tarrant

SCREENING OPINION FOR ENVIRONMENTAL IMPACT ASSESSMENT Regulation 6 of the Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 2017

Proposal: EIA screening request for the installation of a wind turbine up to 90m high to blade tip, including landscaping, access tracks, crane pad, transformer, substation, cabling and other associated infrastructure, for a temporary period of 30 years

Location: Grange Tigger, Land to the west of Top Road/A1077, Winterton, Scunthorpe, DN15 9UP

Applicant: Octopus Energy Generation Ltd

I am writing to provide you with a screening opinion of the local planning authority under Regulation 6 of the Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 2017.

This screening opinion is provided in response to development relating to a proposed installation of a wind turbine up to 90m high to blade tip, including landscaping, access tracks, crane pad, transformer, substation, cabling and other associated infrastructure, for a temporary period of 30 years at the above location.

Given the understanding of the site environment and the development proposal at the time of writing, the local planning authority considers that the development would not comprise EIA development. As such, the authority cannot ask you to undertake an Environmental Impact Assessment of the development proposed or submit an Environmental Statement with an application for planning permission.

Please do not hesitate to contact me should you wish to discuss any aspect of this response.

Yours faithfully

**Emmanuel Hiamey
Senior Planning Officer**
