## 1.0 Background

Active Travel England (ATE) welcomes the opportunity to provide comments on this further consultation. ATE has previously submitted responses dated 20 March 2025 and 01 October 2025, both of which issued a deferral recommendation seeking further clarification on several matters.

It is understood that amended and/or additional information has since been submitted in support of the application. This appears to comprise information relating to viability, together with detailed drawings for the Scotter Road Active Travel Proposals (LIN-BWB-HWY-XX-DR-TR-100-S8-P6). ATE notes that, in its previous response, it had not been possible to locate these drawings, which contributed to the decision to defer the application. Whilst the submission of this drawing is welcomed, it is noted that several matters remain unaddressed, as set out below:

- **Approach to Access Roundabout (M181/A1077)** – refer to previous comments
- **M181 Bridge (North)** – refer to previous comments
- **Off-site Connections** – refer to previous comments

ATE therefore maintain a **deferral position** pending receipt of further clarification on the matters identified above.

### Scotter Road Active Travel Proposals

As previously discussed, the submission of the Scotter Road Active Travel drawing is welcomed. Following review, ATE support the principle of the approach being taken. This particular matter is therefore considered **accepted**.
