27 January 2026

Dear Sir or Madam

New Indirect Connection to the public sewer at: Land South Of Entrance To CanPack UK, Holyrood Drive, DN15 8NN

Notice of Acceptance

Your application to make an indirect connection to the public sewerage system has been accepted; based on the information provided by you. This acceptance acknowledges an increase in flows to the public sewerage system. The connection is for the disposal of SURFACE WATER only. Flow rate and connection based on documents and plan supplied by Applicant.

If there are any changes in relation to the sewer connection, or the information detailed on the original application form, please let us know so we can agree these. Note this acceptance is only Valid for 12months from date of original issue and if your connection is not made within this period you will need to re-apply for your acceptance.

What to do next

We don't need to inspect indirect sewer connections as you're not undertaking works directly on the public sewerage system. The connection works should be inspected by your local building control team or approved inspector building control service. All pipework and chambers will remain private.

Private land

This acceptance in no way gives permission to cross third party land and you must obtain this from the landowner prior to making the connection.

Should any person undertake a connection(s) to a public sewer before it has been approved and inspected by the Company representative, that person will under Section 109 Water Industry Act 1991 (as amended by the Water Act 2003) be guilty of an offence. The connection(s) will be closed and all expenses incurred recovered from that person.

If you need any further help, please contact me on the number above.

Yours sincerely,

Lucy Erskine - Design Technician

On behalf of Operational Delivery Manager Abigail Milioto
