THE APPLICANT'S REASONS FOR APPLYING FOR THE MODIFICATIONS OR DISCHARGE OF THAT OBLIGATION

The Airport's current noise monitoring equipment is at end of life and there are considerable cost implications for its replacement.

The Airport's noise profile has not increased since the equipment was installed 30 years ago but rather there has been a reduction due to less charter and helicopter flights and the introduction of more modern aircraft with a smaller noise print. The airport continues to operate within Government guidelines.

Noise complaints are now rarely received. The mobile unit has not been required in 8 years and the fixed unit mostly registers military aircraft with the highest level for the month, which is outside the airport's control.

Local Parish Councils have been involved in discussions through the Airport Consultative Committee (ACC) and are supportive of the proposal to not replace the monitoring equipment. The airport would agree to hire in mobile equipment as might be required.
