

# Little Gosling Children's Centre Profile 2023

## Part of the North Lincolnshire JSNA

This profile provides a brief picture of public health outcomes for mothers and under 5s in the Little Gosling Children's Centre catchment area for 2023. This information, combined with service reach and activity data, should help agencies understand what factors are driving health improvement in this local population and enable the allocation and prioritisation of resources effectively. The profile contains information on the child population residing in its catchment area, wider determinants of health and indicators of maternal and child health.

- Little Gosling Children's Centre is located in Scunthorpe South locality with the catchment including parts of Frodingham and Ashby wards.
- An estimated 525 under 5s live in this catchment area which represents 6% of all under 5s in North Lincolnshire; just over two fifths (42%) of resident women are of child bearing age which is significantly above average; one in ten are born outside the UK which is significantly lower than average.
- The adult population of this area have poorer health outcomes than average with male and female life expectancies amongst the lowest in North Lincolnshire and significantly below the national average.
- This catchment area has high levels of child poverty with 90% of children living in England's 30% most deprived neighbourhoods; 29% of under 16s live in relative low income, over a third are eligible for free school meals and one in seven households with children claim Universal Credit; all significantly higher than average.
- Low weight births, births to women with minority ethnic backgrounds and births to under 20s are broadly average but the fertility rate is relatively high and the proportion of premature births is the highest in North Lincolnshire; additionally a quarter of pregnant women smoke and 59% of new mothers initiate breastfeeding which are both significantly worse than average.
- Whilst early years development is average, readiness for school at 5 years and GCSE attainment in English and Maths are amongst the lowest in North Lincolnshire.
- A quarter of 5 year olds who reside in the Little Gosling catchment carry excess weight which is similar to the North Lincolnshire average; 36% of 11 year olds carry excess weight which is also similar to average.
- Admissions for injury amongst under 15s are the highest in North Lincolnshire and are significantly above local and national averages; admissions for lower tract respiratory infections in under 5s are amongst the highest in North Lincolnshire; A&E attendances for under 5s are significantly above average.
