

Ridge Ward Profile 2021

Part of the North Lincolnshire JSNA

These profiles aim to provide a brief picture of public health outcomes in each of North Lincolnshire's 17 electoral wards.

The information contained within the profiles use the latest published data available at the time of writing.

The profiles should help us understand what factors are driving health improvement in each area. They should also help us identify where resources could be targeted to improve health and wellbeing and reduce health inequalities.

Ridge ward is a geographically large ward mainly bordering Lincolnshire local authority with the river Trent to the west and six North Lincolnshire wards to the north.

It has a population of 12800 residents, equivalent to 90 per square kilometre, of which none live within England's 20% most deprived neighbourhoods. However smaller areas of relative deprivation may exist in the ward.

The ward population profile shows there are more residents aged 50-89 years compared to North Lincolnshire overall and generally fewer residents aged 0-44 years.

Relative low-income is defined as a family whose equivalised income is below 60 per cent of contemporary median income. Gross income measure is Before Housing Costs (BHC) and includes contributions from earnings, state support and pensions. Total of figures from each ward does not match North Lincolnshire figure due to statistical disclosure controls applied by the DWP. England Figures from Fingertips, PHE.
Claimant Count	Period - Mar 2020; Rate: rate per 1,000; Numerator: Claimant Count, NOMIS Mar 2020; Denominator: Area resident population (persons, 16-64yrs) , ONS 2019; Notes: Under Universal Credit a broader span of claimants are required to look for work than under Jobseeker's Allowance. As Universal Credit Full Service is rolled out in particular areas, the number of people recorded as being on the Claimant Count is therefore likely to rise. This experimental series counts the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek work and be available for work, and replaces the number of people claiming Jobseeker's Allowance as the headline indicator of the number of people claiming benefits principally for the reason of being unemployed. All data are rounded to the nearest 5 and may not precisely add to the sum of the number of people claiming JSA, published on Nomis, and the number of people claiming Universal Credit required to seek work, published by DWP, due to independent rounding. Population data for Mar 17 from is 2016 mid year population estimates.
